TITLE	Racial/Ethnic Data for 1984 Fall Enrollment and Earned Degree Recipients for Academic Year 1984-85. E.D. Tabs.
INSTITUTION	Center for Education Statistics (OERI/ED), Washington, DC.
REPORT NO	CS-88-200
PUB DATE	Jan 88
NOTE	75p.
PUB TYPE	Statistical Data (110)
EDRS PRICE	MF01/PC03 Plus Postage.
DESCRIPTORS	American Indians; Asian Americans; Black Students; *College Students; *Degrees (Academic); *Enrollment Trends; *Ethnic Groups; Graduate Study; Higher Education; Hispanic Americans; *Minority Groups; Professional Education; Racial Distribution; Sex Differences; Undergraduate Study

ABSTRACT

Tabulated data are provided on the enrollment and degree awards of higher education students by their racial/ethnic groups for academic year 1984-85. Surveys were sent to 3,379 higher education institutions in the United States and its territories. Tables in this report include institutions in the 50 states and the District of Columbia only. The response rate was 94%. Missing racial/ethnic data were imputed for 264 institutions (108 partial reports and 156 of the 169 nonrespondents). Five racial/ethnic categories were utilized: Black non-Hispanic, American Indian or Alaskan native, Asian or Pacific Islander, Hispanic, and White non-Hispanic. Nine tables, most of them multi-part, provide data on percentage distributions among racial/ethnic group by enrollment status and level, by sex, by type of institution, by state, and by degree. (KM)

January 1988

Dear Colleague:

The purpose of this report is to make available comprehensive tabulations on the enrollment and degree awards of higher education students by their racial/ethnic groups for academic year 1984-85. These tabulations are based on special versions of Center for Education Statistics tapes from surveys titled "1984 Fall Enrollment and Compliance Report" and "Degrees and Other Formal Awards Conferred Between July 1, 1984 and June 30, 1985." Data on race/ethnicity were collected for the Office for Civil Rights, U.S. Department of Education, and missing racial/ethnic data were not imputed in the computer files released originally from these surveys. Data from these new tapes are suitable for use in trend studies and supercede preliminary data published in the 1987 Digest of Education Statistics and other publications.

The tabulations are prefaced by a description of survey methodology, imputation procedure, and definitions of racial/ethnic groups. This report does not include interpretations or highlights, nor does it include trend data. A bulletin providing highlights and a brief analysis of these data will follow shortly, and a trend report with racial/ethnic data from 1980 to 1986 is planned for release in the fall of 1988.

The data tapes for both survey files are available now and can be ordered by contacting Jack Dusatko at (800) 424-1616 or (202) 357-6522.

Sincerely,

E J Elliott

Racial/Ethnic Data for 1984 Fall Enrollment and Earned Degree Recipients for Academic Year 1984-85

Methodology

The Center for Education Statistics has collected racial/ethnic data for the Office for Civil Rights since 1976 as part of its Higher Education General Information Survey (HEGIS) system. Surveys were sent to the universe of 3,379 higher education institutions in the United States and its territories. The tables in this report, however, include institutions in the 50 States and the District of Columbia only (including the U.S. Service Schools), and exclude the outlying areas (American Samoa, Guam, Northern Mariana Islands, Puerto Rico, the Virgin Islands, and the Trust Territories of the Pacific Islands).

For the 1984 Fall Enrollment survey, 94 percent (3,176) of all colleges and universities responded, of which 108 provided only partial racial/ethnic data. In addition, 169 institutions did not respond to the survey and 34 new institutions provided no data. Missing racial/ethnic data were imputed for 264 institutions (108 partial reports and 156 of the 169 nonrespondents). Data for 13 of the nonrespondent institutions were not imputed because imputations were based on previous responses and none were available from these institutions; the number of students in these schools was small (5,865) and would not significantly affect the overall statistics in the tables.

For the survey of Degrees and Other Formal Awards Conferred Between July 1, 1984 and June 30, 1985, 90 percent (3,019) of all colleges and universities (3,379 less the 42 schools which are nondegree granting) responded. Field of study data were imputed for the 623 institutions that did not respond or partially responded. Fourteen new institutions did not respond and imputations were not done for them because the number of degrees awarded by these schools was small (2,374).

In general, the imputation procedure used for both survey files was based on an average of previous years' responses for each nonrespondent institution. Percent distributions of racial/ethnic data for each relevant line on the survey forms were averaged for all previous years' responses since 1976.* This average percent distribution by race/ethnicity was applied to the reported/imputed total column and the result rounded to whole numbers. Detailed descriptions of the imputation procedure, nonresponding institutions, and imputation ratios for each data item on the survey forms are available by contacting the author.

*Previous years' responses taken into account include: Fall Enrollment: 1976, 1978, 1980, and 1982; Degrees and Other Formal Awards Conferred: 1976-77, 1978-79, 1980-81, and 1982-83.

CS 88-200

The reported and imputed racial/ethnic data together account for 97 percent of all 1984-85 degree awards and for almost 100 percent of 1984 fall enrollment. Therefore, the generated totals based on race/ethnicity in the attached report may be slightly different than the total enrollment and degrees not based on racial/ethnic summaries, because of the lack of racial/ethnic data for the few institutions new to the HEGIS universe.

The following five racial/ethnic categories were utilized in the survey:

Black Non-Hispanic
American Indian or Alaskan Native
Asian or Pacific Islander
Hispanic
White Non-Hispanic

In addition, nonresident aliens, i.e., those members of the aforementioned groups who have not been admitted to the United States for permanent residence, were separately identified as a sixth category in the survey. The nonresident aliens were not to be reported in the racial/ethnic groups listed above.

The definitions for the categories on the survey forms were:

Nonresident Alien: A person who is not a citizen or national of the United States and who is in this country on a temporary basis and does not have the right to remain indefinitely. Resident aliens, who are not citizens or nationals of the United States and who have been lawfully admitted for permanent residence (and who hold alien registration receipt cards--Form I-551/155) are to be reported in the appropriate racial/ethnic categories along with United States citizens.

Black, non-Hispanic: A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).

American Indian or Alaskan Native: A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

Hispanic: A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

White, non-Hispanic: A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

The manner of collecting racial/ethnic information is left to the discretion of the institution provided that the system which is established results in reasonably accurate data. The information is gathered by the Center for Education Statistics for the Office for Civil Rights, U.S. Department of Education, in compliance with Title VI of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972.

Acknowledgments

This report was prepared under the guidance of Samuel Peng, William Freund, and Martin Frankel in the Postsecondary Education Statistics Division. The authors wish to thank Aurora D' Amico for reviewing the manuscript and the following peer reviewers:

Note.--Generated totals may not agree with previously published total degree data, which were not based on race/ethnicity, because of the new schools for which racial/ethnic data were not imputed. Fields of study for each degree level may not add to totals for degree Table 7 because of rounding in the imputation procedure. In addition, there were 2,537 of associate degrees which could not be imputed by field because the only previous response was completed under different taxonomy of field of study.

SOURCE: U.S. Department of Education, Center for Education Statistics, Higher Education General Information Survey, Degrees and Other Formal Awards Conferred, Between July 1, 1984 and June 30, 1985, tabulations from final file with imputations for racial/ethnic nonresponses.
